PLEA TO STATE

TOWNSHIP, HAYWARD, OAKLAND JOIN TO SPEED COMPLETION OF FREEWAY

Chambers of Commerce To Meet With County Officials Over Project June 16

Representatives of Washington Township will join hands with Hayward and Oakland next week in an effort to speed completion of the Eastshore Freeway.

Members of a Township Chamber of Commerce committee will meet Wednesday at noon in the Athens Club, Oakland, before the Alameda County Highway Advisory Committee, semi-official body which recommends road projects to the State of California.

Township Chamber members have long pressed for completion of the final 14-mile link between Mt. Eden and Warm Springs. Composing the committee charged with promoting the work are Stuart Nixon, Niles; LeRoy Broun, Centerville; and Gus Robertson, Irvington.

Also slated to be on hand for the June 16 meeting are Roger Anderson, manager of the Hayward Area Chamber of Commerce; and Bill Sparling, manager of the Oakland Chamber and secretary of the advisory committee.

Last week in San Francisco, B. W. Booker, State Highway engineer for this district, disclosed that some money already has been appropriated by the State to protect rights-of-way for the final link through the Township. Location of any purchases was not told, however.

Goals of the Township and Allied spokesmen is to have the State allocate more money in the coming year, and to calendar the Freeway as a finished job. In order to do this, the following steps are necessary:

1. The County Advisory Committee, composed of officials including County Engineer Wallace Boggs and Supervisor Harry Bartell, must give top priority to the work. Sparling says this already is contemplated.

2. The committee then must plead its case in Sacramento in August before the State Highway Commission, which holds the purse strings.

New Manager For Newark CV Bank

Joe M. Souza Jr., 52, San Francisco banker, this week succeeded W. Grant Perry as manager of Newark's Central Valley Bank.

Souza was born in Merced, worked for the Central Bank in Oakland, and for 17 years for the Anglo-California Bank in San Francisco.

He contemplates moving here with his wife shortly.

Perry, who opened the Central Valley branch in Newark two years ago, moves to an executive job in the bank's main Richmond office.

MILLER-RITCHIE, BEE-ROBEY RACES SEEN IN FALL

Runoff elections in November loomed this week for a number of contested offices, as results of Tuesday's primary became known.

On the basis of incomplete returns, it appeared Representative George P. Miller will meet Jess Ritchie for the Eighth Congressional District seat. Miller won his own Democratic nomination, 54,821 to 57,653, but lost the GOP nomination to Ritchie, 16,998 to 23,175.

State Sen. Arthur Breed Jr. won his Republican renomination handily, but lost the Democratic one, 30,534 to 71,363 to Anga Bjornson. In the hotly-contested 13th Assembly District, Carlos Bee was ahead on the Decoto slate by 17,840 votes, while Ed Robey led in the GOP column, 5412 to 4295 for Bee, his closest rival.

Dr. Vaughn Seidel, county superintendent of schools, apparently had overcome stiff opposition from Dr. O. B. Paulsen. With some precincts still uncounted, the tally ran 84,935 for Seidel, 79,546 for Paulsen.

To the north, former Assemblyman Francis Dunn Jr. was ahead of Fred Maggiora for the Second Supervisorial seat, which represents Hayward and Mt. Eden. But other candidates made a fall runoff almost certain.

A county ordinance which would allow Supervisors to redistrict their constituencies every 10 years, was ahead 85,285 to 56,724, on the basis of unofficial returns.

Guards Invite Guests To Camp

Township residents were invited this week to attend Governors' Day ceremonies at Camp Hunter Liggett, near King City, ceremonies in which nearly 70 local National Guardsmen will take part.

The invitation comes from Capt. Joe Beaudin, commanding Battery C, 629th Field Artillery Battalion, which is nearing the first anniversary of its location in Centerville.

Parents and friends who drive to Camp Hunter Liggett will see the 10,000-man "Argonaut" Division parade in full war kit, and will be invited to lunch with the local youths in their bivouac.

Chamber of Commerce officials and other dignitaries have signified intention of being present. The Guardsmen leave for camp the weekend of June 20.

Youth Fishing Move

On suggestion of Dr. Tom Wilson, the Niles Chamber of Commerce voted on Tuesday to write the district attorney's office, seeking information on how Alameda Creek might be reserved for juvenile fishermen.

Dr. Wilson's move followed defeat last week of a motion to appeal directly to State authorities to have the stream closed to anglers over 16. Judge E. A. Quaresima this week opined such procedure might require a county ordinance.

Decoto To Mark Flag Day With School Rites

Old Glory will fly amid traditional honors this week at Flag Day exercises planned by three Decoto schools.

Tomorrow (Friday) at 10 a.m., a program at Barnard School will launch the observances. On Monday, 10 a.m. ceremonies will be held at Hillview Crest school.

Place of honor at all the Flag Day programs will go to a 178-year-old flag, one of the original 13-star banners, loaned for the occasion by Mrs. Laura Thane Whipple of Niles. The flag, a family heirloom, was given to the Whipples in 1902 by the late J. E. Walmsley, a Civil War veteran.

Other flags to be displayed include a group of 33 made by pupils at the Decoto schools. They range from a replica of one carried by Columbus through the Confederate Stars-and-Bars to the present flag. At Barnard School, the Alameda Naval Air Station color guard will present their standard, and a pledge of allegiance will be led by Sherill Stiarwalt, president of the student council. Choral numbers and explanations of the meaning of the flags will comprise the program.

Speed, Sidewalk Issue

Sidewalks to protect school children along Highway 17, and reduced speeds were discussed hotly on Tuesday by the Irvington Chamber of Commerce.

Members decided (1) to investigate the possibility of installing sidewalks, and (2) to seek State Highway Patrol aid in curbing speeding trucks through the town.

NILES BOARD HIRES 3 FIREMEN; REJECTS CIVIL SERVICE TESTS

Climaxing months of controversy, Niles' fire commission Tuesday night voted to hire three fulltime firemen.

They picked the men from the only three applicants for the jobs. Slated to start work July 1 are the present volunteer chief, Joe Perry, who will become chief at a salary of \$350 a month; Tom Estudillo, longtime volunteer, who will be captain at \$340 a month; and Frank DeSalles, fireman at \$310 a month.

Commissioners Tony Alves and Leon Solon, with Commissioner John Brahmst absent, stated their understanding that civil-service type tests could not be established under existing county laws.

However Jack Parry, who has demanded the civil-service procedure, quizzed Gene Rhodes, attorney hired last February by the commission to set up such tests. Rhodes replied that the commissioners met last Friday at Solon's home with several county fire chiefs, and that they then decided against any form of civil-service.

The commissioners said however they will investigate "tenure" for the firemen's jobs, similar to that enjoyed by teachers.

The commission's announcement came in the form of a prepared statement. Parry did not challenge it further.

DEMO PICNIC SUCCESS

Southern county Democrats to the number of almost 1000 attended Sunday's "victory picnic" at the Niles home of Charles A. Russell, according to Township Democratic Club President Ray Marsh.

EYES RIGHT? — Dr. John Austin needs no glasses or other aid to size up Barbara Talley, Niles (right), and Jeanne Kerlin, Centerville, contestants in Township Junior Chamber of Commerce beauty contest. Dr. Austin, an optometrist, was "natural" choice for chairman of Jaycee committee which will select Miss Washington Township next Wednesday at 8 p.m. judging in high school auditorium. Successful candidate will compete for title of Miss Alameda County at Pleasanton fair later this month. Winner there will vie for honors as Maid of California at State Fair August 29. Contestants must be unmarried, between 16 and 26, and may obtain entry blanks at high school. (WTN Photo)

MISSION SCHOOL TO BE READY BY FALL OF '55

Trustees of the Mission San Jose school district last week for the first time placed on public display the plans for their new \$330,000 grammar school.

The edifice will comprise 12 classrooms, and will be located on Bryant Street, south of the Lincoln Tract. Plans were prepared by the San Jose architectural firm of Higgins & Root.

M. J. Overacker Jr., clerk of the trustees, estimated the school will be ready for occupancy for the fall term of 1955. It is financed with State funds and \$100,000 from a bond issue voted in 1952.

Enrollment at the 1913-vintage school is nearing 300, and is expected to increase sharply again before the new school is ready.

HEARING TUESDAY ON FLOOD CURBS FOR TOWNSHIP

Next Tuesday in Oakland, the Supervisors will decide whether to put to public vote the flood and drainage project their engineers have mapped around Niles and Centerville.

Officially designated a public hearing for Flood Zone 5, the 2 p.m. session in the courthouse will determine whether the voters of the Central Township will get a chance to express their desires on the \$4,000,000 project.

Included is the area from Alvarado and Decoto south to PG&E Road and the Stivers Lagoon. Maps of the zone have been on display in postoffices in Niles, Centerville, Decoto and Newark.

Engineer work includes straightening of Dry Creek, some improvements on Alameda Creek, and deepening and straightening its channels to the Bay.

Backers of the zone say it is necessary to bring this portion of the Township to its fullest development.

WATER DISTRICT CAN'T SUPPLY W.T. HOSPITAL, BOARD WILL DRILL WELL

Problems of water supply which have been delaying a start on Washington Township's new hospital, seemed on the way to solution this week.

Directors of the hospital district, meeting last Wednesday, decided: 1. To forget hoped-for supplies from the Alameda County Water District, and to drill their own well on the Santos Road site.

2. If the well fails, to seek water from San Francisco's Hetch-Hetchy pipeline.

A letter from Water District Manager Matt Whitfield Jr. brought word that the district could supply only 150 gallons per minute under 35 pound pressure from its 6-inch main on Santos Road. The hospital needed up to 550 gallons with 75 pounds pressure.

A. S. Enos, Centerville pump agent, estimated a well could be successfully drilled and a pumping system installed for under \$20,000.

Tests are to be made this week, according to L. S. Whitaker, chairman of the district.

Construction of the 65-bed hospital, scheduled to start next month, has been delayed because of the uncertainty of water supply, Whitaker said.

DECOTO ROAD TO GET FACELIFTING

Decoto Road will be widened this summer at a cost of approximately \$144,000.

The portion of the highway between Highways 9 and 17 also will be re-surfaced, according to advertisements for bids, slated to be opened June 30 in Sacramento.

The work will be financed with some \$84,000 in federal road funds and about \$60,000 in county money.

Centerville Teachers

Faculty and employees of the Centerville Elementary School honored four faculty members who are leaving teaching June 30, at a social last Wednesday.

Teachers who received going-away gifts were Mrs. Edna Stubbs, third grade teacher for the past eight years; Mrs. Margaret Duffie, instrumental music teacher and seventh grade teacher for the past seven years; Mrs. Norma Burns, fourth grade teacher for the past five years, and Mrs. Doris Graves, instrumental music teacher and third grade teacher for the past four years.

SUZY SEZ...

Some Township stores don't have signs in front saying what business they are in, and lose customers every day.

I thought I'd heard everything, but that lawn party held in Newark last week was a new one. It was a party held to make a new lawn. Everyone went home blistered, but the grass is up now.

How ornery can you get? One woman who is such a troublemaker has neighbors on all sides selling their houses to get away from her mean ways.

The best way to locate my favorite eleven-year old is to find the house with all the bikes parked in front. Some times as many as a dozen gather in one spot.

Some of the pictures presented by those picture windows in Centerville are quite interesting. Everything from a card game to house cleaning, all in the public eye.

The woman who complained to me that her deep fryer wasn't working had neglected to read and follow directions. Many housewives fail to follow the directions for their appliances, so of course they don't get maximum efficiency from them.

Just lazy, I guess. I mean the next-door neighbors who phone each other for a chat every day.

Mystery of the week is presented by a non-smoking Irvington woman who discovered her eyelashes were burned off on one eye, and she doesn't remember doing it!

Class of '24 Holds Reunion

The last class to graduate from the old high school on Fremont avenue held its 30th reunion June 5 when eleven 1924 graduates gathered for luncheon at the International Kitchen.

The table was decorated in blue and silver with the place cards bearing a replica of the class ring. The women received corsages in the class colors of blue and silver.

The home of A. D. Lewis, Jr., 184 Fremont avenue, now where the old high school used to be. The old frame building was torn down in 1924, and the present school opened for classes that September.

Present at Saturday's luncheon were Leonard Lucio of Newark; Louis Cardoza and Marie Savaria Bettencourt of Centerville; Ruby Joyce Harvey of Alvarado; Mamie Duarte Ferreira of Niles; A. J. Oliveria, Marie Rose Oliveira, and Francis Bergin Turnbow of San Leandro; Emile Serpa, Jeannette Richmond Bakke, and Ed Collins of Oakland.

Mrs. Chilcote New President of YLI

Mrs. William Chilcote will assume the presidency of De Guadeloupe Institute, YLI, in installation ceremonies at the next meeting, Thursday, June 17.

Mrs. Edward Harig will retire to past president, while Mrs. F. J. Silva will be installed as first vice president; Mrs. Calvin Oliveria, second vice-president; Mrs. Clarence Crane, recording secretary; Mrs. Ruel Brown, financial secretary; Mrs. Raymond Murphy, treasurer; Miss Patricia Santos, marshal; Miss Joyce Rebello, inside sentinel; and Miss Mary I. Duarte, outside sentinel.

Trustees are Mmes. Donald Lemos, Harold Enos, Leland Silva, Frank Souza, and J. M. Hicks. Mrs. M. Silva is organist. Deputy Mrs. Vi Mattingly of Hayward will install the new officers; and Mrs. Leland Silva and Mrs. M. Silva are co-chairmen for the evening.

Softball Season Opens With Bang

By BOB HIRD

Opening ceremonies of the 1954 Washington Township Softball League were witnessed by 250 fans, last Thursday night on the Washington Hi diamond.

Official opening of the '54 season saw eight teams playing three innings apiece, and from the outcome it looks as though it will be one of the best seasons for the Township League.

The exhibitions opened with Cabrillo Park eking out a 2-1 win over Quality Meats. Cabrillo won the game in the third on an error by Quality buck-short Rello Reyna.

In the second contest the Veterans of Foreign Wars pounded U.S. Pipe, 11-2. The Vets took advantage of Pipe errors and pitcher Joe Sanchez's wildness to score nine times in the initial stanza. Dave Souza rapped a two run homer for the Vets.

The third game was the best of

the evening. The Warm Springers won this one 4-2, over Wedgewood. Katie Schramm hit a two-run homer in the third, for the deciding blow. Dick Castro also hit a two-run homer for Wedgewood.

In the final game of the evening, Kraftile completely outclassed Orangeburg, 27-5.

League standings: Larks, won 2, lost 1; Orioles won 1, lost 1; Cardinals, won 1, lost 1.

The Washington Township Softball Association invited the Newark Little League to participate in their opening game ceremonies on June 3. They will play games at the high school when the softball teams are playing there, and would like to have their parents and friends come and encourage them.

PG&E SUES FOR ACCESS TO RANCH

Suit to force a Niles rancher to
permit the PG&E to build power
lines across his property was filed
last week.

The utility seeks passage across
the land of Elmer O'Connell, owner
of 5000 acres north of Niles. The
company wants to put 14 steel
towers and 3800 feet of high-voltage
line over the property, also to
clear brush and build roads neces-
sary to maintain the line.

Towers already have been erected
to the edge of the O'Connell ranch.
The line is intended as a link be-
tween the PG&E's transmission
circuit from Hayward to San
Mateo and its big trunk from Moss
Landing power station to the San
Joaquin Valley.

JEANNE & GENE CARROL
NEWARK 3-3564

AROUND TOWN last week this column released the news of a hot rod club "The Hornets" being organized locally. We are happy to report that the club has added two more sponsors . . . George Silliman who operates the Shell Oil Station, and Al Johnson who operates the Newark Auto Wreckers . . . that's a great start. The membership has been swelled with the addition of: Bob O'Bryant, Jack Slater, Dick Tilley, Jack Berard and Don Dias. Meetings are Thursday nights. First club project, will be to convert the 1935 Plymouth club special coupe owned by chairman Jim McNulty into a dragster to represent the club in drag races. Anyone interested as a club member or sponsor may contact McNulty at Newark 3-2372.

WE SEE THE REC District is registering youngsters for its swimming program which will be divided into two parts . . . June 21 July 16 and Aug. 2 and Aug. 27 . . . for beginners, intermediates and advanced. Check off one orchid for the Recreation District . . . Have you ever thought how nice it will be when, in the future, we will have our own park and maybe a swimming pool too . . . surprising how quick things come to pass if a person (or town) sets his mind to it. Something to think about . . . while you're thinking, remember that the district cannot raise funds by a bond issue but must

operate its programs and purchase land and equipment, etc., from tax funds. The district is currently operating on around 30 cents a hundred . . . we can't expect miracles with that amount.

MENTIONING TAX RATES brings to mind the Newark School Trustees are asking for a 30-cent increase in the 90-cent school tax rate and if we may take the liberty of choosing sides . . . on this one we urge an overwhelming yes vote. No sense in getting a new school if the board doesn't have enough money to run it. Since June of '53 our school enrollment grew from 500 to 315 and it will continue to rise daily. It is our duty to provide a proper education for all those children.

NOW THAT we have passed over the tax situation we want to compliment one of our merchants for his gesture of giving away a television set to one of his customers with no gimmicks, contests or anything attached to the gift. Walt and Belle Haller have operated the Newark Pharmacy for one year and in celebrating their first anniversary they will make someone happy on June 30. Drop in and sign a slip . . . no purchase necessary . . . all that is required is that you be over 16. Congrats to the Newark Pharmacy and many years of growth and success.

FROM THE PHARMACY we crossed the street to Sears & Houston and found young Kenneth Andrus working in the

Hobby section which is just about the best you can find anywhere. Ken should do very well helping customers with their hobby ideas and problems because he is certainly successful in his own . . . model airplane flying. We were also glad to hear that his mother (Beth Andrus) is recovering very nicely and gaining strength daily since being home from the hospital . . . the kind of news we like to hear.

AMONG THE THINGS we have heard lately is the sound of music, real cool, coming out of 121 South Main Centerville so we did a double take and went in to check up on the source and had the pleasure of meeting Bob Kellogg who recently opened the Kellogg Music Supplies . . . the most complete record shop we have seen here, bop, popular, western classics.

WE HAVE DONE this before and been right so we will take a chance once more as the above item got us thinking of music. Tab "Little Things Mean A Lot" with Kitty Kallen as the vocalist for the hit of the year. Think of the list of so-called little things like a smile, a casual wave of recognition, hello and how are you, stopping a car so a child can cross a street, giving up your place in line to someone, the little things we do and say daily do mean a lot.

WE WOULD LIKE to compliment the Sheriff's Reserve and especially Joe Machado the community chairman for their very efficient handling of the neighborhood Cerebral Palsy march. The marchers collected more

than \$400 which will be put to good use by the United Cerebral Palsy Association.

THE ST. JOHN'S FESTIVAL will be held at the Pavilion on Saturday and Sunday, June 19 and 20 and everyone in St. Edwards Parish is looking forward to a successful festival filled with fun and friendliness that will bring the new church building closer to a reality. We hear that the parishioners have been most generous and Father Thomas Gilbert has been seen wearing a big smile so we know it must be so . . . we'll be seeing your smiling face there too . . . won't we? Dancing on Saturday night and Sunday . . . sopas . . . auctions . . . dolls . . . hams . . . bike . . . lots of reason for you to come and enjoy the festival.

DICK and JACQUELINE HESS gave a fun party for Ivan Wilson to celebrate his 8th birthday on Friday, May 28. When it came time for refreshments a huge 4 layer cake was quickly diminished by Larry Jensen, Tommy Lockhart, Bobby Richards, Joey DiMaggio, Alice Velasco, Carol Fragus, Ronald Erickson, Lonnie Brooks, Bill and Joe Fontana. Adults present included: Mrs. Alice Allris and Mrs. Clara Castor. Dick's mother, Mrs. Gladys Hess of Modesto arrived in time for the party and stayed over the weekend.

THE FISH ALWAYS bite better in another lake or stream but we have it from good authority that they weren't biting at Lake Almanor in Plumas county . . . but it was cold. Enjoying the weekend there were: Howard Rash and sons Dean and Tom; Clem and Wilma Spence, Shirley, Dick

and Wes; Lewis and Marie Rash and son Lloyd; Ken and Louis Spence, Ken, Kathryn and Barbara.

DR. HOWARD and SHIRLEY Buschke with their children Sharon and Kenny enjoyed the weekend in Santa Cruz.

OLEG and ADA SKAREDOFF entertained John Tellatoff of San Francisco last Friday. During the day they went to the very top of Mt. Diablo to enjoy the view.

INS AND OUTS . . . MRS. LENA WARNER of San Francisco was in town over the Memorial holiday visiting with her sister, Pearl Cole and hers . . . mixing with the Twirlers at their dance party were AL and ROSE SELINGER, who drove all the way from San Francisco for the Saturday night dancing while visiting Rose's sister, Ruth Latham, president of the local club . . . DON and JANE DIAS and daughter Madge went out to Hidden Valley for a Sunday picnic and swim . . . DON and JOAN MATTOS and baby son Michael moved into a Ranchitos home over the weekend and so Niles' loss is Newark's gain.

HARRY and JEAN RUNNELS and family went to Chabot Park in San Leandro the past Sunday for a family reunion and they took up quite a spread of tables and at the head table was Jean's parents, Mr. and Mrs. Charles T. Way of Quincy . . . JOE and WANDA MIRANDA and GAIL went out of town for the weekend, all the way to Modesto for some family visiting.

MR. and MRS. FENTON Sears returned home last Thursday from their three week

vacation trip to Indiana (where they met Mrs. Sears' sister and her husband) Wisconsin and Illinois. While in Chicago they went out to Wrigley Field and saw the Cubs and Cincinnati play and later in Indianapolis they watched some of the qualifying trials for the Memorial Day classic at the Speedway.

MR. and MRS. E.B. HODGES spent a relaxed weekend at their cabin in Paradise Park, Santa Cruz enjoying the perfect weather and the company of their guests, Mrs. Fred Muller, Mrs. Francis Robie, and Rev. Martin and Mrs. Tonner.

MRS. BERNICE RASH caught up on the latest news and events in her home town when her grandmother, Mrs. Sarah Scheuer and her aunts Miss. Betty and Miss Sadie Scheuer of Mankato, Minnesota dropped in for a visit recently.

CHARLES and IRENE DAVIS took Norman and Judy with them for a weekend of roughing it in the mountains out of Sonora.

MR. and MRS. MERLE McDermott and Janet and Donnie enjoyed the Memorial holiday in Reno.

EARL and NORMA WILL-Burn and sons Del and Danny and Mrs. Daisy Snow headed for Monterey on the Memorial Sunday. Who do they see but Don Graham?

MISS RAMONA PRINGLE, eighth grade teacher, was given a surprise shower last Wednesday in the school patio, after class was dismissed by the combined eighth grades. Miss Pringle recently announced her engagement to the class and they showed their affection for her with a "kitchen shower." The children were aided by Mrs. James Collins, Mrs. Willard Walker, Mrs. Louis Milani and Mrs. Eugene Carroll.

*Big-Car Luxury and Performance
at the Lowest Price of all*

The closer you compare values the more certainly you'll see that Pontiac is the standout buy on automobile row.

In size and weight alone Pontiac offers you more car per dollar than a like amount ever bought before. And that's important, because that long wheelbase is the reason for comfort, riding ease and roadability unapproached within hundreds of dollars of its modest price.

And along with these big-car features you get remarkable savings. Operating and upkeep economy are, of course, exceptional. First cost is the least for any big, luxury automobile — within a few dollars of the lowest-priced cars. Our trade-in appraisals are notably large and Pontiac's resale value is among the highest in the industry. Come in for the facts about today's most startling value.

LEGISLATIVE SALARIES

How would you like a chance to increase your own income? Just such an opportunity confronts Congress but, oddly enough, our legislators may not take advantage of it.

Currently before our national legislative body is a Report of the Commission on Judicial and Congressional Salaries, which contains strong recommendations for increasing salaries not only of the legislators but of the various federal judgeships. It all started last August when Congress created the Commission "to determine the appropriate rates of salaries for justices and judges of Courts of the United States and for the Vice President, the Speaker of the House of Representatives, and Members of Congress in order to provide fair and reasonable compensation to such officials."

The act required that the 18-man Commission be composed of an equal number of representatives of labor, business and the professions, and agriculture. It is a rather singular honor for California to have received three appointments on this 18-man Commission. Frank M. Shay, President of the California Prune and Apricot Growers Association, was named as an agricultural representative; Eugene D. Bennett of San Francisco and Loyd Wright of Los Angeles, both attorneys, were appointed as representatives of business and the professions.

MODE OF OPERATION

The Commission pursued its investigations through a professional staff of more than 30 experts from all walks of life, who served without compensation from the Commission; seven task forces consisting of Commission members to gather factual material and do research in their respective fields of inquiry; hearings in Washing-

ton, D.C.; and more than 10,000 pieces of correspondence with editors, civic leaders, and just plain garden-variety citizens.

At the conclusion of its inquiries, the Commission determined that the present scale of judicial and congressional salaries has not kept pace with the growth in the duties and responsibilities of those offices. It also felt that the differences between salaries for these public offices and salaries paid by private enterprise to persons of similar ability have become too great. Even within the government, judicial and legislative salaries have not been adjusted upward in keeping with increases in the administrative branch.

RICH MEN ONLY

Then, completely aside from all the rest, the Commission concluded that the salaries of members of the federal judiciary and Congress are grossly inadequate. These various factors tend to confine the judge-ships and legislative jobs to persons of independent wealth or outside earnings. An undesirable result, we would all agree. The Commission's recommendations include an increase in salary for the Chief Justice to \$40,000 a year; Associate Justices of the Supreme Court to \$35,000; corresponding increases for federal judges; and an increase to \$27,500 for members of Congress.

This sounds like a lot of money, but there are two interesting sidelights. It has been so long since these salaries have been adjusted that the increase in real income is actually very small. For instance, the recommended salary of \$27,500 an annual raise of \$12,500 for members of Congress will give them a net increase in purchasing power, after taxes, of only \$1,472 in terms of 1939 dollars.

SMALL COST

Then, too, the net cost of the salary increases recommended by the Commission would constitute only 1/100 of 1 percent of the Federal Budget. In fact, the Government will get back in taxes a large portion of the recommended increases. For instance, the gross annual amount of congressional salary increases would be \$6.6 million, out of which the Government would realize \$2.1 million in increased taxes.

The Commission's report leaves little question that the salary increases are wise and necessary. Congress may well be reluctant, however, to implement the Commission's recommendations. This is, after all an election year. Unless there is favorable sentiment among the folks back home, it is probable that Congressmen will pass up a pay raise for a better chance of re-election.

TWO SHELL-DEVELOPED WAYS TO DO IT

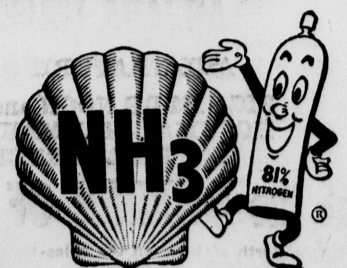

NITROGATION SERVICE®
...meters anhydrous ammonia into irrigation water. The fertilizer is carried by the water into the root zone. It combines with soil particles... plants can begin feeding immediately. Irrigation and fertilizing become one job.

NITROJECTION SERVICE®
...employs Shell-approved equipment to inject this nitrogen-rich NH₃ at root zone depth. Here NH₃ combines with the soil immediately. Cultivating and fertilizing become one job.

Either type of Shell NH₃ application is handled by local men who know crop conditions in your area. Through these men you benefit by Shell's unmatched experience in root zone fertilizing.
